**PRIYANSHI JAGATI**

Web Developer

Re: Application for internship

Respected Sir/Mam

I am writing to express my interest in the internship position within the Support Services. I am currently a third year student at JAYPEE UNIVERSITY OF ENGINEERING AND TECHNOLOGY ,GUNA concentrating in web development. As part of my program, I have completed front end development course from udemy.

I believe that internship will be valuable in helping me develop a deeper understanding of my core branch.

I believe that the combination of my academic and professional experiences has provided me with the organizational, interpersonal and analytical skills that will enable me to make a significant contribution .Enclosed please find a copy of my resume, which provides additional information on my background and work experience. Thank you for your time and consideration, and I look forward to hearing from you.

Yours sincerely,

Priyanshi Jagati

## Education

---

- Jaypee University Of Engineering And Technology, Guna** 2021-2025  
B. Tech  
8.3
- Small Wonders Senior Secondary School, Jabalpur** 2021  
12th (PCM)  
93.6%
- Small Wonders Senior Secondary School, Jabalpur** 2019  
10th  
92.4%

## Skills

---

- Web development
- C++
- Python
- MySQL
- Android Studio
- Fusion 360
- Operating Systems
- Data structure
- Git
- Github

## Projects

---

- Python Bus Booking App**  
Online ticket searching, booking, and management are all made possible by a Python bus ticketing application. Users can look up bus routes, choose seats, send money securely, and get electronic tickets.
- Alarm Clock**  
A mobile application that enables users to set and manage alarms on their Android devices is being developed as part of an Android Studio project. It has features including the ability to set numerous alarms, select alarm tones, and snooze. The project uses the Java programming language, numerous Android APIs, and the Android Studio development environment for managing alarms and creating user interfaces.
- Tic-Tac-Toe**  
The Tic Tac Toe Android Studio project is a mobile application that allows users to play the classic game of Tic Tac Toe on their Android devices. It features a user-friendly interface, multiplayer mode, and intelligent AI opponent for challenging gameplay.
- Virtual Space Organizer**  
A web development and AI initiative called The Virtual Space Organiser seeks to streamline the management of both physical and virtual areas. For effective organisation, it uses computer vision, machine learning, and intelligent algorithms to categorise items, visualise areas, manage digital files, send timely reminders, and make tailored suggestions. This idea uses cutting-edge technologies to revolutionise space management.
- My business website**  
This website was created with the intention of selling the uniquely made products by me. I am the proprietor of a small firm. With the aid of web development, I created a website to sell my art supplies.
- CV**  
I recently used HTML to build my own online resume that highlights my qualifications and accomplishments. It provides a unique way for prospective employers to learn more about my qualifications on a visually appealing and engaging platform. My CV website offers a thorough representation of my experience and abilities with a user-friendly style, making a positive impression on visitors.
